PROFESSIONAL PROFILE

Completed an HND in Software Engineering (2026), awarded by Cardiff Metropolitan University, and progressing to its BSc (Hons). Builds mobile, web and desktop apps with Flutter, Dart, Java and C#, using Firebase, SQL, REST APIs and Gemini AI. Seeking a software engineering internship to gain industry experience.

EDUCATION

PROGRESSING

BSc (Hons) Software Engineering
Cardiff Metropolitan University

COMPLETED 2026

Higher National Diploma (HND) in Software Engineering
ICBT Campus, Jaffna · Awarded by Cardiff Metropolitan University

PROJECTS

Learnova AI

FINAL-YEAR HND PROJECT

AI-Powered Student Learning Assistant

Flutter · Dart · Firebase · Gemini AI · Cloudflare Worker

- Developed a Flutter Android app with an AI academic chatbot, quiz generator, notes summarizer, study reminders, study materials and a GPA calculator.
- Implemented Firebase Authentication for registration and login, with a Cloudflare Worker-based password reset flow.
- Integrated Gemini AI through REST API calls for chatbot replies, quiz generation, note summaries and reminder extraction from images and PDFs.
- Used Firebase Firestore for user data, chat history, CRUD operations and dashboard activity analytics.

KMC Event Platform

ACADEMIC PROJECT

Service-Oriented Event Management Web Application

C# · ASP.NET MVC 5 · Web API 2 · Entity Framework 6 · SQL Server

- Built a service-oriented web application in which an ASP.NET MVC 5 client consumes an ASP.NET Web API 2 service.
- Implemented event management and event registration with CRUD operations on SQL Server through Entity Framework 6.
- Kept presentation, API and data access in separate layers, so the client reaches the database only through the Web API.

The Sweet Cupcake Shop

ACADEMIC PROJECT

Java Desktop Management Application

Java · Java Swing · JDBC · MySQL

- Built a Java Swing desktop application for product and staff management, with role-based Manager and Cashier dashboards.
- Applied OOP through an abstract User class extended by Manager and Cashier, with encapsulation, method overloading and custom exceptions.
- Implemented CRUD operations and connected to MySQL via JDBC using parameterized PreparedStatement queries.

TECHNICAL SKILLS

PROGRAMMING

Dart · Java · C# · JavaScript

MOBILE

Flutter · Android Development

WEB & BACKEND

ASP.NET MVC 5
ASP.NET Web API 2 · REST APIs
Entity Framework 6
.NET Framework

DATABASES

MySQL · SQL Server · JDBC
Firebase Firestore
Firebase Authentication

AI

Gemini AI · AI API Integration
AI-Assisted Development

TOOLS

VS Code · Android Studio
NetBeans

CONCEPTS

OOP · CRUD · API Integration
Database Applications
UI Development

PRODUCTIVITY & DESIGN

MS Word · PowerPoint · Canva

ACHIEVEMENTS

3RD PLACE

Hackathon · ICBT Campus

CORE SKILLS

- Problem Solving
- Quick Learning
- Adaptability
- Communication
- Teamwork
